

## Peterborough City Centre is Changing..... ...Help us shape its future

Peterborough is growing, and the city centre needs to change to. New facilities and better environment are needed for existing and new residents. A plan is needed to guide change.

Opportunity Peterborough and the City Council are about to start work on an

Area Action Plan (AAP) that will shape and manage future growth and development within the city centre.

From the outset we want to involve local people and visitors in shaping this plan for the future. This questionnaire seeks views on the very issues to be covered by the plan

What are the main reasons you visit Peterborough city centre (besides your present visit)? Please tick up to three.
