

Agri-Tech, Food & Drink

Overview

From locally sourced produce to international brands, Peterborough's food and drink industry has a strong foundation and contributes significantly to the local economy. From processing and packaging companies like **New Covent Garden Foods, Bokomo** and **Del Monte**, to cuttingedge food technology research being undertaken by **AB Agri** and **British Sugar**, and manufacturing equipment suppliers such as **Baker Perkins, Olympus Automation** and **Flo-Mech**, the city covers the full value chain of production and innovation.

Agricultural strength

With its hinterland home to around 4,000 farms which support 27,000 jobs, Greater Peterborough's agri-food industry generates around £4 billion of food-related trade each year. The rich farmland around Peterborough – The Fens – represents about half of the Grade 1 agricultural land in England and provides the city with a natural base for a cluster of food-

related businesses, supported by strong transport and logistics infrastructure. As a proportion of England's output, the Fens are responsible for approximately 37% of vegetables and 39% of the bulbs and flowers grown in the open, as well as 24% of the potatoes and 17% of the sugar beet. They also produce enough wheat for 250 million loaves of bread every year.

Food production

Over 400 food manufacturing and foodrelated firms contribute more than 6,000 jobs to Peterborough, covering machinery and equipment manufacturing, cold storage, packaging, labelling and haulage. **British Sugar**, the sole processor of the UK's sugar beet crop and one of the largest single customers for the engineering sector in the East of England, operates from Peterborough where it's enjoyed a long and profitable history. **Produce World** is also headquartered in the city and manages numerous fresh food supply chains for selected partners in retail and the food service industries. Other major operators in the area include **McCain Foods**, **Bokomo**, **Masteroast**, **Kerrys**, **Bakkavor**, **Nestle Purina**, **AB Agri** and **Bourne Salads**.

Sector support

Peterborough and its surrounding region offers world-class support and advice to food and agricultural focused businesses. Local providers include **Peterborough Regional College's Food Manufacturing and Processing Centre of Excellence**, the **Fresh Produce Consortium**, the **Agricultural Industries Confederation** and the **Agricultural Engineers Association**.

Also within easy reach is Lincoln's **National Centre for Food Manufacturing**, Norwich's **Institute for Food Research**, Cambridge's **National Institute for Agricultural Botany** and the regional support organisation, **Agri-Tech East**.

Peterborough truly lies at the centre of the UK's Agri-Tech, Food and Drink heartland.

Peterborough is an ambitious city with a diverse economy and exciting plans for growth. We were the first UK city to install a city-wide, pure fibre gigabit speed internet network. This new digital highway is driving growth, enabling innovation and revolutionising the way we do business.

Situated at a crossroads of primary north-south and east-west routes, Peterborough is just 45 minutes from London King's Cross, 1hr 45m from the Port of Felixstowe - the UK's busiest container terminal - and 75 minutes from five international airports. We boast the fastest commuting speeds in the country and lowest carbon emissions per vehicle in the UK.

With below average wage costs, Peterborough retains an excellent house price to earnings ratio and has some of the best value commercial property within a 50-minute commute of central London. Around £200 million has been spent rebuilding and refurbishing every secondary

school in the city, in addition to developing University Centre Peterborough and the University Technical College: Peterborough is investing in its future.

A billion-pound regeneration programme is underway in Peterborough, delivering major new housing, leisure and employment opportunities. With Cathedral Square, in the heart of the city, now transformed and already attracting significant investment from the retail and restaurant sector, development of the city's riverside on the South Bank is the next focus for major regeneration.

A medieval city with a cosmopolitan population of 188,400 people, Peterborough is a city focused on investment, growth, connectivity and opportunity. With an increasing reputation as the city of choice for major global players, SMEs and innovative start-up companies, Peterborough is the ideal location to invest, work and live.
