“Without a doubt the best decision I ever took was to put my doubts behind me and go on the course because it has given me a new career, which I am really enjoying.

My friends say that it is the ideal job for me and perhaps redundancy in 2011 was the best thing that could have happened to me. And it proves that you are never too old to learn and start a new career, because, to me, it is a new career, not just a way of doing some part-time work to top-up a pension”
D.Robertson.
