TOURING EXHIBITION

T. rex: The Killer Question
at Peterborough Cathedral from
20th July to 31st August 2020

 www.peterborough-cathedral.org.uk/t.rex

DID YOU KNOW...

that over the last 12 months **210,000** visitors came to see *Tim Peake's Spacecraft* presented by Samsung and Science Museum Group, and Luke Jerram's *Museum of the Moon* and *Gaia* artworks?

Now, Peterborough Cathedral is hosting the world-class exhibition **T. rex: The Killer Question**. The show was produced and developed by The Natural History Museum in London and includes nine animatronic dinosaurs, five static dinosaurs and a full size static T. rex. It will be displayed in the 16th century New Building at the east end of the Cathedral.

"People have asked how we could possibly follow Tim Peake's Spacecraft or Luke Jerram's amazing artworks, but this exhibition will be a fitting sequel. It will be a great day out for local families during the holidays and also a way to build on the crucial environmental themes we have explored in earlier exhibitions. These are big questions about our world and the responsibility we have as human beings to care for it and protect it.

It's also a marvellous opportunity to attract visitors to our city from across the region and ensure that Peterborough continues to be a place where great things happen."

Very Revd Chris Dalliston, Dean of Peterborough

Be part of this highly anticipated exhibition in the magnificent setting of Peterborough Cathedral.

When: 20th July to 31st August 2020.
Tickets will go on sale, in early 2020.

SPONSORSHIP PACKAGES

We have three different sponsorship packages available which include great benefits. Your support will play a vital role in the success of the exhibition. Unlike *Tim Peake's Spacecraft*, which was part of a national tour with its own budget, this is an independent venture for the Cathedral. Your help in cash or in practical ways will make a real difference.

If sponsorship is not for you on this occasion, we do have a number of evenings available for your business to host an exclusive reception for valued clients, friends and family in the Cathedral, with a private viewing of the exhibition. Please ask for details.

All sponsors will be invited to a VIP reception, be mentioned in press releases and have their logo or name featured on a display board at the exhibition.

Main Sponsor - £10,000

Become Main Sponsor of this wonderful world class exhibition. Your package will include:

- Holding a VIP reception (normally worth £3,000) for valued clients, friends and family in the Cathedral, with a private viewing of the exhibition and Prosecco for up to 50 people.
- Your name and logo placed next to biggest attraction of this exhibition, T. rex.
- Your company name and logo on all posters, leaflets, website (with click through to your company website) and press releases promoting the exhibition.

Sponsor a dinosaur - £2,500

Become a sponsor of one out of six amazing dinosaur displays. Package will include:

- Your name and logo placed next to your chosen display.
- Your name and logo on the main website for the exhibition with click through to your company website.
- 4 complimentary tickets to an event of your choice from the Cathedral forthcoming programme (excluding Annual Nave Dinner).

Event sponsor - £1,500

Become an event sponsor and help us with logistical and set up costs. Individuals and groups are welcome to get involved with funding or practical support. Package will include:

- Your name and logo on the main website for the exhibition with click through to your company website.
- 4 complimentary tickets to an event of your choice from the Cathedral forthcoming programme.

MORE ABOUT THE EXHIBITION

WATCH

For a short overview of the exhibition when it was displayed at the Natural History Museum, see: https://youtu.be/2iP_KNYQgWA

WHAT DOES THE EXHIBITION SHOW?

- A life-size T. rex and Saurornitholestes skeleton
- Three Saurornitholestes showing many features typical of predatory dinosaurs
- A life-size T. rex model; at more than 12m long and 5m high it strikes an intimidating pose
- A predatory T. rex with Ankylosaurus – a three-quarter-size predatory T. rex is attacking an animatronic Ankylosaurus
- Two animatronic Deinonychus and a Tenontosaurus model – the full-size adult herbivore has just been attacked and killed and is being devoured by two small, agile, full-size Deinonychus
- Two Dromaeosaurus and one Edmontosaurus nest – the two animatronic Dromaeosaurus approach and attack a nest of young Hadrosaur hatchlings
- Scavenging T. rex with Triceratops carcass – the three-quarter-size animatronic T. rex is ravaging a slain Triceratops
